

This was initially a USAC error from the Erate PIA process. We are requesting a waiver for the 60 day time limit on appeals. There were multiple District employees who thought the appeal to correct the USAC error had been filed by each other when, in actuality, it had not.

During the PIA process there was some confusion due, I believe, to dealing with multiple PIA reviews causing an error in the funding commitment decision. There was a data entry error and Shoshones FRN 1799063640 was decreased from \$3,500/month to \$3,050/month incorrectly during the PIA review process. FRN 1799063640 should have been funded at \$3,500.00 per month. the bandwidth was increased to 300Mbps for the 2017-18 funding year. The contract allows for the increase in bandwidth and is priced accordingly. We are requesting the funding commitment be corrected for FRN 1799063640 to the original amount requested of \$3,500/month. If you have any questions feel free to contact me. I have uploaded the contract, original 471 and denied appeal. Thank you.
